<b>Outline of travel and accommodation logistics</b>	We travelled out mainly as part of the GBR team so all logistics were handled by British Shooting, the exception being for James Henderson who travelled under the banner of Scotland. This is a very popular regional event in Europe attracting competitors from all around the world and runs an IPC event through the event at the same time. Hotels are all of a decent standard with transport to & from ranges and airports available. Fundamentally a well run event, only glitches were around training times changing and approached for the allocation of training time varying across the ranges.
<b>Outline of Competition logistics</b>	All matches and finals run to ISSF standards. Fully qualified ISSF Range Officers and Jury members in attendance, many of whom were from the UK. There was Equipment Control available but random checks were few and far between.
