Outline of travel and accommodation logistics	Being a major championships this was a GBR team so all logistics were handled by British Shooting. The location was one of the Elite Sports centres in Holland where a sports hall was converted into the Qualification range and a conference centre converted for a Finals Hall. Accommodation was on site and very local to the ranges.									
Outline of Competition logistics	Competitions run in the normal ISSF manner. It is worth noting that one of the top performing athletes was disqualified after the Qualification round due to an equipment failure. This highlights the need to be vigilant about checking equipment prior to major matches.

Outline of Competition logistics	For the first time the competition was split into 2, the first weekend reserved for Seniors and the second weekend for the Juniors. This meant that finals could be held for all relevant Junior events too, a welcome improvement. Matches and finals were shot to the usual ISSF standards, there was not however any meaningful form of Equipment Control which is commonplace for these “regional” European competitions.
